The Experiment, 2013. Book Condition: New. Brand New, Unread Copy in Perfect Condition. A+ Customer Service! Summary: " Their Fate Is Our Fate employs authorial charm and real-world anecdotes to present a compelling, engrossing case for paying careful attention to our avian neighbors." -- ForeWord Reviews ". . . Doherty views birds as prophets of a sort, as 'sentinels, sampling the health of the air, seas, forests and grasslands that we share with them.' He presents tales of complicated, messy interactions between birds and humans, often culled from his experience in the world of medicine but also detailing some of the oft-overlooked ways in which subtle human actions can greatly impact birds. As this fine book makes clear, it turns out to be true in a much larger way than you ever imagined." -- Bill McKibben , author of Oil and Honey: The Education of an Unlikely Activist "The author, an enthusiastic bird-watcher, combines bird lore and cutting-edge science in an attractive mix that should inspire citizen scientists to pursue their hobby with renewed vigor and convince others to join in." -- Kirkus Reviews "A lucid and absorbing account of the relationships between birds, viruses, and environmental degradation. Frightening, but punctuated by humor and historical asides--it will leave you watching and listening to birds with renewed interest." -- Brian Kimberling , author of Snapper "From the Spanish flu to West Nile virus, disease threatens the integrity of our ecological web. Doherty synthesizes with wit and wisdom the science of disease ecology that he helped create, quickly convincing his readers to learn from the birds that share our disease..."
