Then welcome to Active Server Pages For Dummies, 2nd Edition. In this guide, you ll see exactly what ASP is all about and how it works. You may be a Web site or intranet developer for a company, or the owner of a personal or small business Web site, or a programmer who wants to get in on all the hot new technologies. In any case, you re always looking for ways to make your job easier and your Web site cooler. You probably know how to use Windows NT or Windows 95/98 and your web server software, at least well enough to get around. Are familiar with HTML and have played around with some advanced tags. Have had at least a little exposure to a scripting language like VBScript, JavaScript, Perl, or REXX. Have worked with a macro language such as you d find in a spreadsheet or other application. Have actually done some programming in Java, Visual Basic, C, or COBOL. But don t worry. To get the most...
