

Mathematical Questions and Solutions in Continuation of the Mathematical Columns of the Educational Times Volume 57 (Paperback)

Filesize: 3.66 MB

Reviews

*The most effective book i ever read through. It can be rally fascinating throgh looking at time period.
Your lifestyle span will be enhance when you complete looking over this publication.
(Maribel Kerluke)*

MATHEMATICAL QUESTIONS AND SOLUTIONS IN CONTINUATION OF THE MATHEMATICAL COLUMNS OF THE EDUCATIONAL TIMES VOLUME 57 (PAPERBACK)

Rarebooksclub.com, United States, 2012. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1892 Excerpt: .XOY un angle fixe et A un point fixe pris sur OX. On trace un cercle quelconque C tangent a OX et en un point D a OY; puis de A on mene a ce cercle une seconde tangente qui le touche en E. Demontrer que la droite DE passe par un point fixe. 11022. (G. Heppel, M.A.)--If A, B, C are the angles of a triangle, transform $(\sin B + \sin C) \sin B \sin C + (\cos C - \cos A) \cos A \sin C + (\cos B - \cos A) \cos A \sin B$ into an expression symmetrical with respect to A, B, C. Solution by the Proposer; Professor Mukhopadhyay; and others. It is clear that $\cos JB \cos JC$ is a factor. Therefore, if the expression is symmetrical, $\cos JA$ is also a factor. Dividing by $\cos JA \cos B \cos JC$, the other factor is $8 \sin JB \sin JC \cos J (B-C) + \sec J \cdot A \cos 3A 4 \sin JC \sin J (A-C) + 4 \sin JB \sin J (A-B) 1$, and this ultimately reduces to $4 \cos A \cos B + \cos B \cos C + \cos C \cos A - 2 \cos A + \cos B + \cos C + 2$. 8919. (W. J. Greenstreet, M.A.)--In the ambiguous case, if A be given angle, a, c given sides (oa), C, C₂ the two positions of the angular point opposite c, show that the radius of nine-point circle of ABCiC₂ is half that of nine-point circle of AABC₂ if c=la, and...
